BILLING POLICES

Rebecca Olander & Shayla Hinrichsen:

The fees for APRN services will be in accordance with the reasonable value set forth by the established community guidelines and standards. At the present time, the fee for the Initial Evaluation is \$350, after which the billing rate for a nurse practitioner follow-up appointment is \$180 per 99214 and \$130 per 99213.

Insurance copays are due at the time of service. Those clients who have met their insurance policy's deductible must pay their co-payment per appointment until the insurance benefits are verified. Self-pay clients are expected to pay fees at the time of service unless other billing arrangements are agreed upon in advance. If payment is not received for two consecutive sessions, the client may not schedule another appointment until the fees owed are paid in full. The APRNs reserve the right to delay, defer, or discontinue services for any reason, including if the balance owed is not paid at the time it is due.
